

# TOP LOGISTICS EUROPE

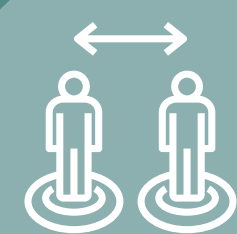

## PROTECTIVE MEASURES

TOP LOGISTICS EUROPE will feel slightly different this year, whilst ensuring the safety and security of all our exhibitors, visitors and partners.

### PREVENTATIVE MEASURES

- Hand sanitiser stations available throughout the venue
- Digital payment and contactless badges available
- Face Masks required for all participants (build-up and dismantling)
- Protective screens installed at information points and welcome desks

### SOCIAL DISTANCING

- Separate entry and exit points to manage visitor flow and in compliance with recommended capacity
- Redesign of meeting areas and conference rooms whilst respecting social distance guidelines

### REINFORCED CLEANING

- Stands and furniture provided by organiser (equipment delivered in plastic covering)
- Aisles (removal of carpet)
- Infrastructure (service ramps, windows, lifts, etc.)
- Public and service areas (benches, ashtrays, ATM's)

### SUSPECT CASES

- Isolation and removal of suspect cases (e.g. journey to avoid public exposure)
- Dedicated isolation area away from public and separate from first aid area

### COMMUNICATION

- Before the event: Regular sharing of information with attendees and partners on updated advice received from the relevant health authorities
- On Site: Posted signage reminding attendees of the security measures (e.g. preventative measures, visitor flow, social distancing) and public announcements

### SAFETY ADVISOR

- Our Health and Safety Manager will coordinate and ensure the implementation of these measures at all times.
- A global group director will manage and evaluate the safety programme across all Comexposium events.

*This Guidance (as of 18 June, 2020 ) is subject to change as the current situation evolves.*
